

Vail Preservation Society

Connecting Community Through Local History

Preservation is not just bricks and mortar. Its true importance comes through its power to bring people together, building relationships and community as we work together to preserve our stories and cultural resources.

Preservation Youth Projects and Community Youth Curator projects are a priority.

“History teaches critical 21st century skills and independent thinking. The practice of history teaches research, judgment of the accuracy and reliability of sources, validation of facts, awareness of multiple perspectives and biases, analysis of conflicting evidence, sequencing to discern causes, synthesis to present a coherent interpretation, clear and persuasive written and oral communication, and other skills that have been identified as critical to a successful and productive life in the 21st century “ *The Value of History*
